REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-26 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The Applicant's arguments filed on 2/29/2006 are persuasive. The feature of claims 1 and 13 directed towards allowable subject matter are the receiving of control instructions from an external mediator in combination with dynamically updating said specific exposure list and providing a display by projector means. The feature of claims 25 and 26 directed towards allowable subject matter are the receiving of control instructions from an external mediator in combination with dynamically updating said specific exposure list having a specific content. These features in combination with the other limitations of the claims makes them allowable over the prior art of record. Schmier generally teaches of a dynamically updated information system but is lacking the external mediator connection and information flow as claimed. Therefore said features in combination with the other limitations of the above independent claims are found allowable over the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
